

Arc's Community Training Program

Presents

Community Employment Monday, July 6, 2009 @ 5:30-6:30 pm

Arc is proud to host our own Job Developer, Marianne Supnet, as she presents information on Community Employment for individuals interested in finding a job in their local areas. Marianne will discuss the process of employment training, resume writing, contacting employers, setting up interviews, and job coaching.

This training is not only for those seeking Community Employment: it is also for anyone who can help discover job leads for others or anyone with employment contacts to share. You'll have a great chance to hear success stories about individuals who are currently employed by businesses such as Krikorian Theatres, Food 4 Less, and CVS.

We will feature a short video by Joy Tshako—Area Work Incentives Coordinator, Social Security Administration—who will offer general information on understanding benefits for those interested in employment changes.

This is a Free Training!

Light Refreshments will be served.

**To enroll, contact Jeffrey Stephens, Training Coordinator
at 562.803.1556 x262**

The Arc Community Training Program provides professional education and instruction on various topics related to Intellectual and Other Developmental Disabilities to increase community awareness and support for individuals with disabilities. The Arc of Southeast Los Angeles County is a nonprofit organization serving individuals with intellectual and other developmental disabilities since 1956.
